

走火入魔中了邪 從韓劇談起

~陳大安~

為甚麼美國盟友紛紛要擁抱中國?

史諾登叛離美國逃到俄羅斯，震驚了世界，揭露了美國利用互聯網和手機通訊等竊取方法，監控世界各國領袖、政治人物及平民的資訊和私隱，引起世界各國極大反感，各國都成為受害者，尤其是歐洲盟國的領導人，本人和國家尊嚴都嚴重受損，這些怨氣很難嚥下，而美國最親密的英國盟友，亦應在被監控之列，在此事件中，反應卻十分底調，雖然表面底調，私底下並不表示可接受，而事件更埋下日後眾叛親離的惡果。

一個國家，作為世界警察，應有很高的道德水平，方能受到擁護，領導世界，但當缺乏誠信，尤其對盟友如同對敵人一樣看待時，作為盟友，當然很難接受，大都對這個盟主有新的看法，從前的言聽計從，美國要打那一國，盟國就跟隨不誤的時代已經過去，反觀現在的敘利亞戰爭，歐盟各國反應十分冷淡，可見美國的領導地位，已經得不到歐盟的尊重和支持，而美國製造出來的後遺症，例如：近期的敘利亞、利比亞難民問題，大都要歐盟各國來承擔，自然會覺得、再跟隨這個老大將會沒有好運行。

英國是個老帝國，老謀深算，由中國倡導的[亞投行]，是美國所要遏制中國發展目標之一，但英國看到加入[亞投行]可為帝國帶來發展復興好機遇，在沒有通知美國的情況下，迅速申請加入，成為[亞投行]始創會員國，而主要歐洲盟國，

~中偉~

德法兩國亦心有同感，和其他國家亦相繼加入，反映出歐盟國家，對美國領導的失望，都要為自己找尋新出路。

最近習近平訪問英國，受到超高規格接待，英國更不理會一些國家傳媒的冷嘲熱諷，極力討好中國，更要和中國建立全世界全面戰略夥伴關係，含意就是要追隨中國一起來打拼，這一個老帝國，的確老謀深算，想利用中國崛起的機會，搭上這順風車，實行棄舊換新，希望大英帝國能借此機會，重振當年雄風，成為歐洲最強國家，一洗二次大戰後，成為美國跟班小老弟的屈辱。

要達到這目的，當然要對中國有所表現，包括支持[亞投行]、[一帶一路]和為人民幣國際化做出貢獻，這些行動都是頂著美國而行，對美國圍堵中國的計劃做成很大打擊，而德國及法國，感覺到英國的壓力，看到不利情況，亦不甘落後，不同程度的擁抱中國，積極支持中國發展的大戰略，是世界經濟復興的原動力。

中國倡導維護世界和平，國家平等，公平，共同合作發展，互利共贏，已經成為新世紀各國的共識，受到廣泛的歡迎和接受，和霸權主義形成強烈的比照，霸權主義將會被孤立，再沒有可發展市場。

認識我的朋友一定很驚訝，他們知道我從來不喜歡韓劇，那有資格談它。事實上我談它正是因為我對好幾年來華人社會普遍存在的哈韓風（當然包括看韓劇）深為不解，覺得有必要提出來談談。

我雖不喜歡韓劇，但難免看電視轉台時不巧碰上中文台在播映這個勞什子，印象雖不全面，卻也有代表性。感覺上，韓劇裡的女主角長得都是一模一樣，男主角個個娘氣娘相，令人不禁懷疑莫非這些男女演員都是找同一個整容師動的刀？

我想談的是哈韓風的由來。台灣先有哈日族，這自然與台灣曾被日本佔領多年有直接關係，日本人在台灣當然也留下一些野種，這裡面最不要臉的是李登輝，此人不值得浪費一秒鐘。在台灣哈日族中間，像李登輝這樣無恥的應該不多，他們普遍以能說幾句日本話為榮，生活上喜歡吃sashimi，喝sake，睡榻榻米，巴不得台灣歸日本托管。就讓他們繼續去做他們的大頭夢吧，有些人是不到黃河心不死的。

禍不單行，台灣繼哈日族一波未平又蹦出來一群哈韓族，這股妖風之襲來全無預警，對我而言就像被人打了一悶棍，覺得既倒霉又荒唐。更荒唐的是中國大陸居然也走火入魔似的中了邪，每年浪費在購買韓劇播映權以及採買韓國化妝品上的錢數算起來恐怕會嚇死人。

其實中國大陸這些年拍攝的連續劇不在少數，制作的紀錄片也包羅萬象，還有如"百家講壇"這類的專題論述，各地電視台更有精心策劃的各類益智或綜藝節目，一個人無論是基於無聊或是增長知識或見識，儘可在這些節目中獲得滿足，怎會淪落到要去看那不倫不類，中文發音，韓國背景，男女主角均是出自同一把整形刀的韓劇？

至於韓劇的內容，根據對人性的了解，憑常識判斷也能確知不會超出情變家變，身世之謎，職場鬥爭，宮廷傾軋等等人間百態。我要請問：花了幾十個鐘頭，陪上幾十CC眼淚之餘，閣下增長了什麼見識？學會了什麼新知？看過韓劇才知道世態炎涼？才曉得知人知面不知心？才領悟山盟海誓不可靠？人為了金錢和權力會醜態畢露？

基本上，我對任何語言的連續劇一律缺乏興趣，一般來說，我對能猜到結果的以及明顯在拖延集數的劇情從不浪費時間，兼因缺欠耐心，眼力不濟，向來對連續劇敬而遠之。對於時間的運用，我常聽人說：我都年紀一大把了，手上時間也一大把，當然是願意怎麼花就怎麼花。說者氣或許還壯，理卻極其不直。我的看法是：越老越要珍惜時間。你想想，世界上有多少東西你知之有限或是全然不知？縮小範圍，中國歷代有多少史實會令我們啞然以對，張口結舌，甚至臉紅脖子粗？難道不想在有生之年有這些方面有所長進嗎？

舉個例子，我一直認為美國指控中國有關張領土的野心乃是欲加之罪何患無辭。你說我們有關張領土的野心，一定是我們歷史上就有這種不良記錄？根據我的了解，中國歷史上並沒有的侵略鄰國的記錄呀！前不久在CCTV紀錄片中看到了中國有能力侵略卻沒有對鄰邦動武的例子。這部片子講的是秦併六國成功的原因，它說秦軍使用的是青銅武器，而六國已幾乎全面使用較為先進是鐵製武器，可是使用比較落後武器的秦軍卻能戰勝群雄且完成統一大業，基本原因是遠在公元前兩，三百年秦國已能在冶金，品管等方面遠遠領先群雄，甚至全世界。以劍而言，從兵馬俑出土的

秦劍得到證明，秦劍較長卻不易折，原因是鑄劍時青銅和錫的比率已達到完美境界。更難得的是所有出土的秦劍儘管出廠年代相差十幾年，其標準全都一致，顯示秦時已效率極高的品管制度。再看弓箭，秦軍使用的弓要用腿蹬才能上弦，所以射程遠勝手拉弓，但腳蹬弓的缺點是扣發須用力，用力則手易抖，影響準頭，而秦弩的構造堪稱精巧，秦兵不費力就能扣發。此外秦箭的箭頭一律呈三稜形，出土的四萬多個箭頭其三稜完全等長，三個弧面也幾乎完全一致，飛行時能將空氣阻力減至最低，如此才能穿透甲冑傷及人體。

講了這麼多，只為指明一點：遠在兩千多年前當全世界的冶金術和控管術仍在朦朧階段，秦國即擁有如此先進武器，又能靈活運用步騎兵聯合作戰，其戰鬥力在當時絕對所向無敵，如果中國的確是一個有領土野心的國家，為何秦始皇沒有乘勢揮軍西向？果如是，豈不早就成吉思汗千餘年就席捲了西亞和歐洲？

雖然這已是陳年舊事，卻深得我心，是鄭和下西洋之外又一個中國自古沒有侵略野心的例證。我用以上這個例子是要證明：無論是為了求知還是解悶，都沒有必要呆坐在電視機前看韓劇。互聯網的發明使得"秀才不出門能知天下事"成為可能，需要的只是一顆好奇的心。

相信我的朋友裡不會有哈韓族，希望他們的配偶也不至無聊到要去看韓劇來打發時間的地步。

閣下若認為我是在小題大做，我沒有意見。故意把小題做大，原因非常明顯。

歡迎賜文討論。

人算不如天算

蔡英文被突擊

變臉容易，獨性難改。為了獲取最大公約數選民的認同，藉著女性的陰柔批上溫和的外衣，適時操縱第三勢力、外圍組織搞學運反政府，加上模稜兩可的宣稱會維持現狀，這幾年為了奪取政權不惜犧牲台灣未來的發展，而且正好把造成台灣的困境推給執政者，這就是小英的三十六計！

然而人算不如天算，民進黨最痛恨的鼻屎大的國家(現今的四小龍龍

馬習會對兩岸未來的良性發展有決對性的加持做用，上一代的恩怨到此一筆勾消，如果小英真心想維

持兩岸和平互動現狀，應該要主動感激、贊成馬英九的造橋鋪路多了一種方式，怎麼反而指控馬英九是框限台灣的未來？更何況台灣大多數民意都贊成兩岸領導人會面，所以小英的極力反對馬習會才是真正的在破壞台灣民主！

戴上假面具非常容易，但本性難改還是露出了狐狸尾巴！台灣的中間選民不能掉以輕心，心存幻想、絕對要認清台獨份子的本質，台灣的未來決不能交給一群寧可當日本二等公民而拒絕承認祖先的權利追逐者，她們才是真正的賣台集團！

失敗者是能從失敗中得到教訓而不是以另一套方式捲土重來。日本人從不是一個好勝利者所以他也很難成為一個好的失敗者。無條件投降後的日本脖子上接受了失敗日本的阿達馬(腦袋)卻沒有接受在山姆叔叔的扶植下又成了好漢一條軍國主義也跟著還魂了。日本的經濟侵略照舊不承認有侵略戰爭與慰安婦強調日學為用仍舊八個牙露。日本兵南京大屠殺亞洲各地也有千千萬萬的人被日本兵殺破他們在落日中他們如秋墳鬼唱片語問青天那第一句一定是「這樣的芳鄰這樣的日本這麼笨還要做強盜」？

二次大戰期間美國國防當局邀請人類學家班尼迪研究日本民族

她寫下「菊花與劍日本文化模型」一書認為日本人有高雅如菊花殘酷如劍的雙重性格；日本人殘暴是事實但高雅是需要大智慧的可是日本人太笨了日本人老是全國上下一心大家努力一起做笨事吃原子彈前他們耀武揚威不識大體笨事是軍事侵略；吃原子彈後政成經濟侵略；安倍狂言議員大祭戰犯於神社。還不記取教訓中俄韓相爭不是自己的島嶼。一個一隻腳踏進泥裡拔不出來至少要做到就是避免另外一隻腳再踏進泥裡避免更大的禍因；但是這種聰明日本當權派絕對沒有如果有早就來蘆溝橋了。九一八事變已吃下東北尚未消化又要吃華北宇垣看到這危機他說「滿洲建設沒完又發生中日危機說滿洲抓兩隻兔子最後一個也抓不到」。但是日本定的路卻是抓第三隻兔子偷襲珍珠港結果抓的不是兔子而是老虎尾巴。真正的「虎！虎！虎！」最後成為山姆叔叔大東亞的第一大附庸國.....

US Citizens Troubled by Contradictory 'China Threat' and "Dooms Day"

Most Americans are immigrants or their descendants within a short period of time. The United States welcomes immigrants and molds them into Americans within a couple of generations through an Americanization Process (AP). In this process, children get Americanized when they grow up and get educated in American schools; effectively they influence their parents and each other into Americans. AP works with all Spanish, European, Asian and African immigrant families with a little difference, attributable to 'inherent culture' each immigrant group or national origin brought to the U.S. Racial 'discrimination' inherently exists in different races in the US society, however, the American anti-discrimination laws legislated over the years do help reduce discrimination hence help assimilating immigrants into the American society which now contains a variety of elements of inherited cultures.

Immigrants come and AP works because the U.S. is a rich country of resources easily affording plenty of opportunities for immigrants to make a decent living. AP perhaps can be related to a notion or an inducing agent - 'American Exceptionalism'(AE). AE binds Americans together and makes them feel exceptional, righteous and patriotic which unites Americans towards other nations. Americans feel exceptional and unite together when they believe that their government and their country are being exceptional. On the other hand, Americans become rebellious when they are deceived and confused by their government or the mass media in a way casting their exceptionalism away. This nation building process (Americanization) is unique and yet different for every immigrant group because AE may be felt differently (on social, economic, national and international issues) by different immigrants. However, one thing is certain that AP is motivated and enhanced by AE and it is also a process making the U.S. strong and Americans feeling exceptional. Hence, if the U.S. government is doing an exceptional job, for example, in handling the US-China relation, Americans especially Chinese Americans will feel exceptional and will support the government whole-heartedly.

Chinese Americans have a stronger cultural inheritance bonded with a long Chinese history and the historical world status of China. Chinese Americans would pay more attention to what the media report and what the government is doing regarding the U.S.-China relation than other Americans. Chinese Americans understand (better) the Chinese people, Chinese history and intrinsic Chinese culture; they are understandably more sensitive and critical to the U.S. foreign policy towards China. Since Chinese Americans are a minority in the American population (~4 Million 5 years ago), the mass media pay less attention to the feelings, sensitivities and criticisms of the Chinese Americans towards the U.S.-China policy. This phenomenon may occur similarly with other minority groups such as Greek Americans, Hungarian Americans, etc. but not so with Jewish Americans (~6 Million 5 years ago). Perhaps due to the fact that the State of Israel and the Middle East are oil-rich, geopolitically important to the U.S., thus dictates more media attention. However, China's rise is making Asia Pacific to be an important

Mainstream and Organic Views Dr. Wordman

geopolitical region; hence the U.S. is initiating a Pivot to AP policy. Consequently, the US-China relation is rising to be the most important US foreign relation deserving media's full attention.

While the mass media is devoting more pages to the news (more negatively spun news by the way) and the US official policy statements about China, however, there are little coverage of Chinese Americans' opinions and emotions towards the China issue. This shouldn't be the case for two good reasons. First, the above 'AE - AP' doctrine applies and works for all immigrant groups in the U.S., the Chinese Americans deserve and want to have a fair chance to engage in the dialogue shaping the US China policy. In fact, the government and the mass media should seek out the Chinese Americans' opinions. Second, the four million Chinese Americans is a significant group not only having unique heritage background but also possessing highest education level. As of 2012, Asian Americans had the highest educational attainment level and median household income of any racial demographic in the U.S. Chinese Americans are more than 25% of the Asian Americans in the high end spectra of both education and household income. On US-China relation, it is necessary to engage an intellectual discourse with Chinese Americans. Any US China policy must be well explained to and accepted by the American public including not excluding the Chinese Americans. The internment of 120,000 Japanese Americans during WW II was a mistake and shutting off the voice of 4 million Chinese Americans on China issue would be unthinkable. This column raises this issue simply because the topic of US-China relation seems to be orchestrated deliberately without Chinese Americans' input or involvement.

In my earlier writing, I have pointed out that there are two prevailing themes driving or defining the U.S.-China policy/relation in the U.S., neither one seem to be well grounded with facts and theories. Most troublesome, the mass media seem to ignore how the Chinese Americans feel and believe. The first theme is the "China Threat" which basically targets China as the principal enemy of the United States. A strategy calls to align everyone possible in the world, especially China's neighbors, most deviously and viciously Japan, as military allies to contain China's rise as a developing nation. Japan, with a heavy baggage of imperialism committed atrocious war crimes against China for decades, was knowingly encouraged by the U.S. to beat the drums of 'China Threat' and to rearm the Japanese defense force with liberty to attack, despite of

Japanese citizens' protest. The second theme is the "Dooms Day" which claims that a degenerate and mal-functioning Chinese government is doomed to collapse due to her housing-infrastructure bubble, failing economic policies and her internal racial issues. A phenomenon prescribes an inevitable disaster or dooms day for China in a decade or two. China's reform and desire to find her own development model is ignored and scoffed to fail miserably. These two themes contradict each other in that if China's government were doing so badly how could she pose any threat to her neighbors never mind the U.S. thousands of miles away? If China were to collapse in a decade or so why should the U.S. go through such trouble to align half the world economy to contain China? No wonder that the schemes such as the Trans-Pacific Partnership (TPP) which the U.S. purposely trying to exclude China's participation took years to negotiate. Why should the U.S. line up all countries in the region with the exception of China which happens to be the largest and most important trading partner to all these countries?

These illogical themes sure bother any right-minded US citizen, especially, Chinese Americans. The more serious and fundamental issue is that these illogical themes destroy the above discussed AE-AP doctrine which bonds American immigrants to be exceptional Americans.

China, an ally of the U.S. during WW II, walked out of the Soviet Union and its style of communism. China was forced into the Korean War with either accepting Russia placing troops at her border in North Korea or facing the U.S. establishing military bases in the entire Korea Peninsular choking China. China wanted a real independent Korea all along. China was instrumental in terminating the Vietnam War between the U.S. and Vietcong-Russia when the U.S. was warming up to China. After the U.S. recognized China, China played the 'leverage' role the U.S., so desired which eventually led to the collapse of the Soviet Union and the ending of Cold War. The Soviet was the targeted enemy of the United States and still is, why must China be treated as a targeted enemy by the U.S. setting up a new Cold War (even warm or hot war)?

In the past decade, there is no shortage of news, analysis, comments and opinions about China and U.S. China policy, but the above illogical themes prevail with no honest debate reviewing the historical facts (war crimes, territorial disputes and international relations) and no voices of Chinese Americans. Most older Chinese Americans lived through WW II, Korean War, Vietnam War and witnessed the struggle of China's 'yet to complete' revolution to establish her own republic nation and her latest rapid economic development to raise her people's standard of living. Where is the debate? Who is causing a threat? And who is driving an arms race? The U.S., Russia, Japan or China? Is it really a zero-sum game? One nation must be destroyed for another to be superior? Will the world be better off with the U.S., Russia, Japan or China to be no. 1? Why can't we have collaborative treaties instead of military alliances? What for? A nuclear war? Or real benefits for citizens and world economy?!
